News:

Spectrum Software has released Micro-Cap 11, the eleventh generation of our SPICE circuit simulator.

For users of previous Micro-Cap versions, check out the [new features](#) available in the latest version. For those of you who are new to Micro-Cap, take our [features tour](#) to see what Micro-Cap has to offer.

User Articles

Many fine articles that use Micro-Cap as an application are available on the internet and provide some very useful application techniques for the program. A list of some of these articles is available in our [User Articles section](#). If you know of other articles that we have not listed, please let us know.
